

Validation Reference Implementations - FpML®

1. Web Validation Service

This free service checks FpML 4.0, 4.1, 4.2, 4.3, 4.4, 4.5, 4.6, 4.7, 4.8, 4.9, 5.0, 5.1 and 5.2 documents against the schema, and then against the [4.0 business validation rules](http://www.fpml.org/2003/FpML-4-0/validation/) (http://www.fpml.org/2003/FpML-4-0/validation/), [4.1 business validation rules](http://www.fpml.org/spec/2004/FpML-4-1/validation/) (http://www.fpml.org/spec/2004/FpML-4-1/validation/), 4.2 business validation rules, 4.3 business validation rules, 4.4 business validation rules, 4.5 business validation rules, 4.6 business validation rules, 4.7 business validation rules and 4.8 business validation rules, published with the FpML 4.0, FpML 4.1, FpML 4.2, FpML 4.3, FpML 4.4, FpML 4.5, FpML 4.6, FpML 4.7, FpML 4.8, FpML 4.9, FpML 5.0, FpML 5.1 and FpML 5.2 Specifications. It currently supports cross-asset class shared elements, Interest Rate Derivatives, Credit Derivatives, and Equity Derivatives. Wrapped documents are not supported.

As an example, you can try the validation service using these FpML 4.0 files:

- valid example: [ird_ex01_vanilla_swap.xml](http://www.messageautomation.com/services/validator/ird_ex01_vanilla_swap.xml) (../services/validator/ird_ex01_vanilla_swap.xml)
- invalid example: [invalid-ird-1-01.xml](http://www.messageautomation.com/services/validator/invalid-ird-1-01.xml) (../services/validator/invalid-ird-1-01.xml)

Save these documents in your local drive (Right click, Save As...) and validate them using the [Validation Service](http://www.messageautomation.com/FpML/validator/) (http://www.messageautomation.com/FpML/validator/). Other examples can be found in the [specifications](http://www.fpml.org/spec/2007/wd-fpml-4-4-2007-12-24/) (http://www.fpml.org/spec/2007/wd-fpml-4-4-2007-12-24/) or you can build them yourself with the [FpML Editor/Viewer](http://www.fpml.org/tools/editor/) (http://www.fpml.org/tools/editor/).

The Web Validation Service has NOT been reviewed by ISDA in any way. The listing carries no explicit or implicit endorsement or certification by ISDA. Neither ISDA nor Message Automation are liable for any damages incurred through the use of this service. The use of any tool requires your own due diligence and is carried out at your own risk.
